

“He constructs landscapes of modernity with a gallant use of thick paint “

Carly Ivan Garcia- www.fa-fineart.com

Carly Ivan Garcia has developed and evolved a unique neo-abstract art style. Garcia's language of imagery is translated through strong form and bold palettes. In the past few years, his work has been shown in numerous gallery solo's around California and countless group shows all over the West coast. In December 2009, Garcia's work was exhibited in Miami, Florida during Art Basel. He was featured in a group show for international emerging artists and also collaborated with Graffiti Gone Global to create a large-scale installation that received extensive media coverage.

The following spring the California Film Institute featured renowned artist, Carly Ivan Garcia together with the World Theatrical Premiere of Touching Home. Ten of his paintings are the focus art pieces in the full

length feature film Touching Home, starring Ed Harris. In June of 2010, Garcia was the only west coast artist invited to Chelsea, Manhattan by Tinca Art inc., New York, N.Y and the N.Y.C.L.U. to be part of the group show Just Art 2010. The show focused on four major themes; Privacy, Censorship, Immigration and Reproductive Rights. Garcia chose to express censorship.

By March 2011, Carly was back in New York during Armory week participating in Fountain Art Fair NYC, in Chelsea Manhattan. An exhibit for avante garde artists where he constructed a New York based installation.
